Hi! Where do I start! Laura from start to finish was incredibly amazing! Professional and very quick responses. She knew what she was talking about! Helping coordinate the wedding day of was such a big help for my cousin (the bride). I had contacted her to gift this to my cousin and was able to talk to her about everything that's included in her package, it's everything my cousin needed to let the weight be lifted off her shoulders for the day of wedding! Thank you so much Laura for everything you did... I know it was ALOT lol. I wish I knew someone getting married soon to refer Cherry Pop Events to! I will still spread the word of her amazing work and coordination. :)

We worked with Laura and her team this past weekend 10/10/25. Laura had a Plan A & a Plan B incase we had rain in the forecast. Her team was non stop since we arrived at 12:30PM and continued to after the time we left 10:00PM.

Laura & her team helped us when we were stuck at the gate and needed to get buzzed in by Airport staff, she helped us locate our Bar trash bins and she even brought my wife and I food when we were to busy to leave the bar.

Great Teamwork...

I have thrown several parties myself over the years so I was hesitant to hire a party planner for my son's first birthday party. I'm so glad that I decided to hire Laura because she helped me with everything from shopping, ordering, setting up and tearing down, cleaning, etc. She did more than I expected her to (including calling a nurse when my son started vomiting!) and I do plan to hire her again for future parties! (It was so nice to enjoy my guests, instead of running around doing everything!) I recommend that you do the same!!
